## Innovation

## Viewsonic DLP - Projector

### Features

#### Advanced connectivity

With dual HDMI, component, composite and S-video inputs

#### Bright in virtually any setting with 4,000 lumens

Ultra-bright 4,000 lumen output makes this the perfect choice for large boardrooms, conference halls and auditoriums

#### Connect anywhere : present up to 8 projectors at the same time

#### Green equipment enabling cost savings

Use the Eco-mode to achieve lower power consumption, reduce overall noise and extend lamp life. Filter less design saves costs and maintenance.

#### Stay connected: supports multiple video timing formats from SD to HD 1080p

### DLP – Pro8400

The ViewSonic Pro8400 is an advanced high brightness DLP installation projector which includes BrilliantColor technology to deliver stunning all-digital clarity with life-like color, sharp graphics and outstanding video. The Pro8400 delivers 4000 lumens with a 1920x1080 (1080p) superb image resolution, allowing it to shine in virtually any lighting situation.

It provides maximum mounting flexibility with a wide 1.5x optical zoom adjustment and a multitude of connectivity options including Network Display, USB, and WiFi. The filter-less design and long lamp life offer easy maintenance and low total cost of ownership.

# About IT Cluster

## Leal Communications & Informatics Ltd (LCI)

Founded in 1977, Leal Communications & Informatics is a leading IT solutions and services Provider in Mauritius, serving both corporate and retail markets. It offers a wide range of innovative and tailor-made services including implementing systems, storage, security and networking solutions, sales, services and support.
